Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 06 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Slow moving showers leading to some prolonged showery rain.

Today:
Slow eastward moving widespread showers develop throughout the day leaving some longer periods of thundery rain, some possibly torrential, particularly in the afternoon. Some more pleasant sunny spells possible between downpours. Becoming breezier through the afternoon particularity in coastal locations. Maximum temperature 20 deg C (68 deg F).

Tonight:
Showers becoming persistent through the evening, locally heavy or torrential. Quite blustery over night with some locally strong winds at coastal locations. Cloudy skies leading to a mild night. Minimum temperature 11 deg C (52 deg F).

Saturday:
As winds ease again further slow-moving showers will edge northeastward across the region Saturday, some locally heavy and thundery. Showers will ease through the evening. Feeling cool. Maximum temperature 18 deg C (64 deg F).

Outlook for Sunday to Tuesday:
Slow moving showers and breezy winds will continue through Sunday becoming scattered into Monday with sunny spells possible between downpours. Turning drier Tuesday with plenty of sunny spells. Remaining cool.
